

# SPRING AND SUMMER CITY SERVICES

## Chipper Service

The City's weekly chipper service begins Monday, April 20, and continues through October. Residents should follow the color-coded chipper schedule to determine which day, Monday-Thursday, brush and branches are collected for chipping during the summer.

MONDAY Orange  
TUESDAY Green

WEDNESDAY Blue  
THURSDAY Purple

Place tree limbs and shrub clippings at the curb by 7 a.m. on the scheduled day of service for your street. Trimmings must be at least 4 feet long. Piles should not include vines, thorns, roots, grass of any kind, or foreign materials such as metal, lumber, nails, wire, string, rope, or staples.

When a tree service or landscape company is hired to cut down trees or clear areas, it is solely responsible for that removal.

## Yard Waste

Grass clippings, leaves, branches, and other yard waste are collected weekly for Hilliard residents. Organic waste should be placed in brown paper bags or rigid containers clearly labeled with yard waste stickers, which are available at the Hilliard Municipal Building, 3800 Municipal Way.

Contact the Public Service Department at (614) 876-7361 ext. 311 or submit a request at [hilliardohio.gov/hilliard311/](http://hilliardohio.gov/hilliard311/).

Please cut branches to less than 4 feet in length and tie them into bundles with string or twine. Each container, bag, or bundle must weigh less than 50 pounds and be free of rocks, dirt, and plastic bags.

## Tree Pruning and Maintenance

The City is responsible for trees in the public rights of way. Homeowners are responsible for trees in their yards. The City will only prune or trim trees in the public rights of way.

## Vacation House Check

Planning to leave town for a few days?

Fill out a vacation house check form to request that Hilliard Division of Police officers keep an eye on your home. Get complete info and request a vacation house watch at [hilliardohio.gov/vacation-house-check/](http://hilliardohio.gov/vacation-house-check/).

## Mosquitoes

By mid to late summer, mosquitoes carrying diseases such as West Nile Virus can begin showing up in Hilliard.

Within Hilliard, spraying for mosquitoes is performed by Franklin County Public Health, which typically sprays when a trapped mosquito tests positive for West Nile Virus. The City does not spray for mosquitoes, but when spraying is planned we notify residents in affected areas through social media and, when possible, through our e-newsletter, "Happening in Hilliard."

Learn more about mosquitoes and what you can do at [hilliardohio.gov/mosquitos/](http://hilliardohio.gov/mosquitos/).

## Sign Up For Hilliard's E-Newsletter

In addition to following the City on social media, residents can receive the latest news and info by signing up today for our e-newsletter, "Happening in Hilliard." Register at [hilliardohio.gov/newsletter-signup/](http://hilliardohio.gov/newsletter-signup/).
